

Architectural Lighting Solutions

Customized Lighting Manufacturer for Retail, Hospitality, Office & Commercial Projects

Company Profile 2026

BRAND UPGRADE

From factory supply to project lighting solutions

Artdon is being repositioned from a traditional OEM lighting factory into a project-oriented architectural lighting partner. The new presentation speaks to lighting designers, architects, brand distributors and contractors.

NEW MESSAGE

European style
Professional customization
Project support from sample to delivery

Who We Are

Founded in 2007, Artdon Lighting is an architectural lighting manufacturer focused on customized indoor lighting for commercial and project applications.

18+

years manufacturing experience

100

people in engineering, production and sales

OEM

ODM and co-development capability

We support global partners with product development, sample making, stable production and project-based lighting solutions.

What We Do

01

Architectural Lighting

Track lights, downlights, magnetic systems, linear lighting, surface and pendant solutions.

02

Customized Products

Structure, size, optics, finishing, installation and project-specific requirements.

03

Project Support

Lighting data, IES files, product specifications, samples, photos and local market entry support.

CORE STRENGTHS

Why Global Partners Choose Artdon

The value of Artdon is not only production. It is the ability to translate customer needs into reliable, buildable lighting products.

Fast customization

Flexible structure and finish changes for different project needs.

Engineering support

Mechanical, thermal and optical optimization with practical manufacturing thinking.

Stable quality

Full-process production control, aging tests and photometric verification.

Project experience

Retail, shopping mall, office, hospitality and customized commercial cases.

Flexible cooperation

OEM, ODM, exclusive series and co-development models.

Manufacturing Strength

Artdon combines in-house manufacturing with practical engineering. Our facilities support fast prototyping, metal processing, tooling cooperation, assembly and quality control.

CNC machining

Cold forging

Laser processing

FROM IDEA TO PRODUCT

R&D and Engineering Capability

We are especially strong in non-standard products: changing dimensions, mounting methods, optical parts, heat dissipation structures and appearance details for brand or project needs.

Customer requirement

Mechanical design

Optical / thermal review

Prototype sample

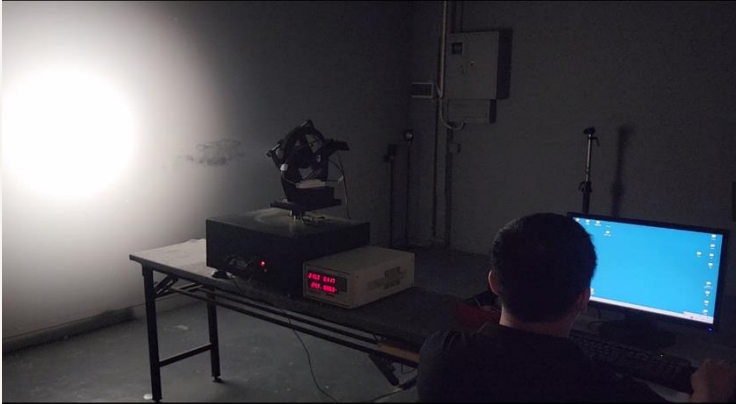

Testing & optimization

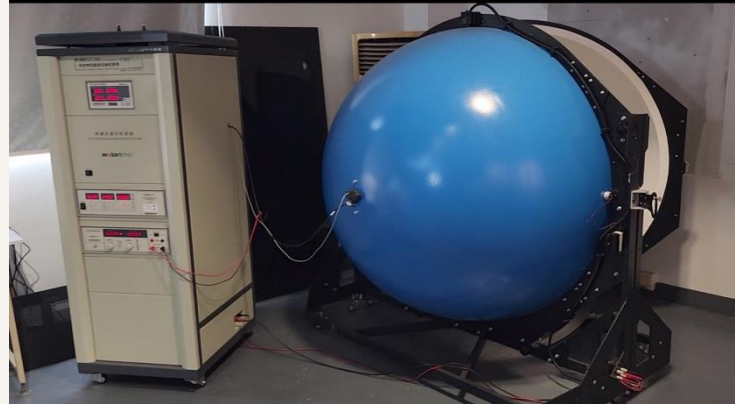

Mass production

Quality Assurance

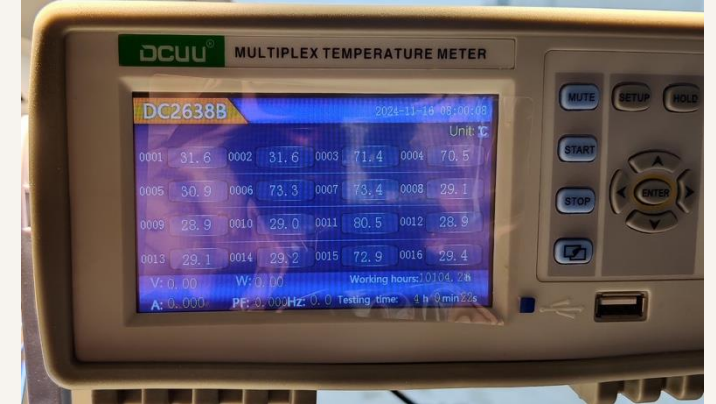

IES Test

Photometric data for design and project submission.

Aging Test

Stable performance verification before delivery.

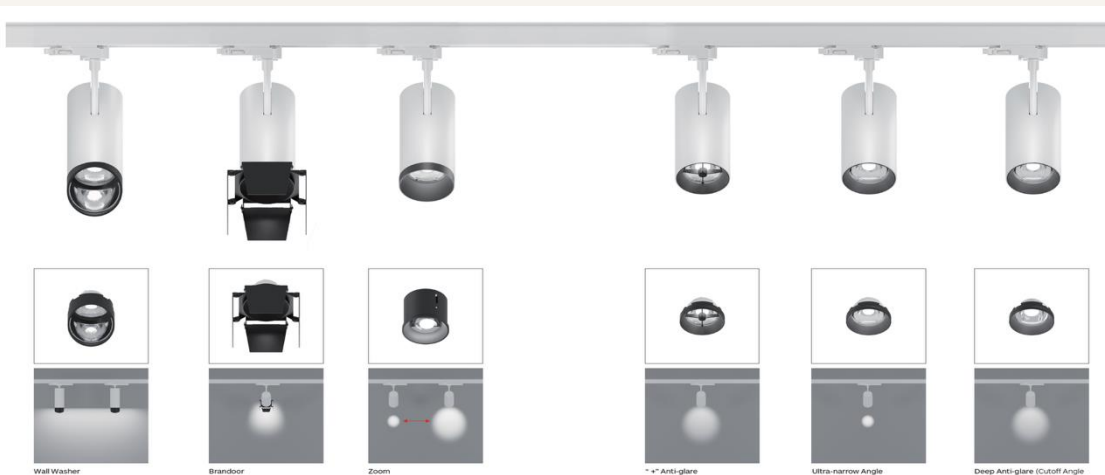

Temperature Test

Thermal control for driver and fixture reliability.

Inspection

Process control from incoming materials to shipment.

Product Portfolio

— Track Lighting

— Recessed Downlights

— Surface & Pendant

— Magnetic System

— Linear Lighting

— Outdoor Lighting

— Accessories

Featured Product Families

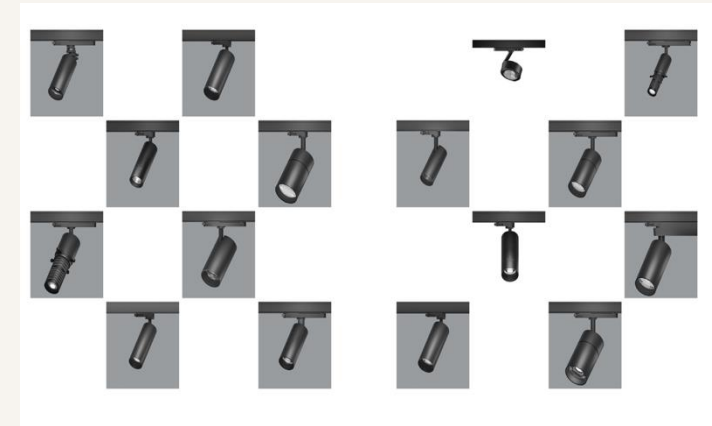

SLIM

Compact recessed downlights available in fixed and adjustable versions, combining small dimensions with high lumen performance.

AURO TUBE 60

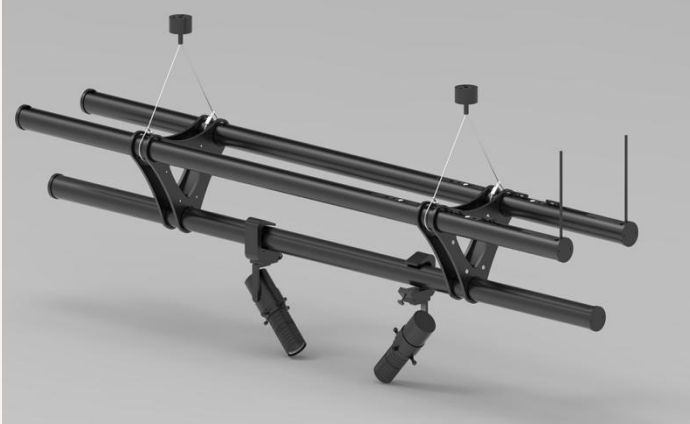

One profile, multiple lighting possibilities. Easily combines linear lighting, accent lighting and magnetic modules to create flexible architectural lighting solutions.

TRACK LIGHTS

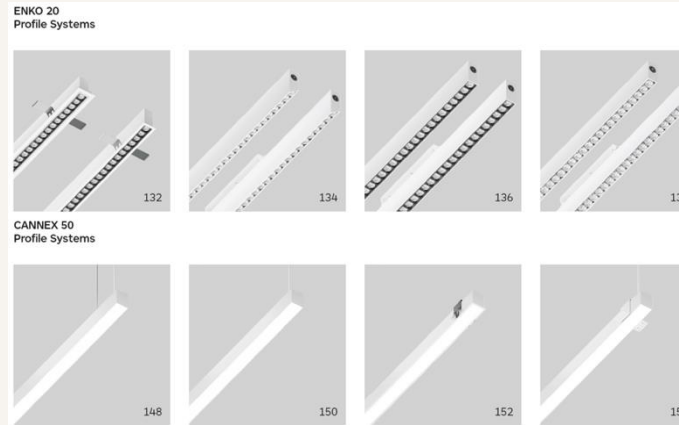

Comprehensive track lighting solutions with multiple designs, wattages and optical options to meet diverse architectural lighting requirements.

Featured Product Families

ARTAX / MAGNETIC

Precision projection lighting with interchangeable gobos, adjustable beam shapes and focus control for creative architectural lighting.

LINEAR SYSTEM

Architectural linear lighting systems combining ultra-slim profiles with versatile optical options, including anti-glare, wall washing, adjustable and general illumination.

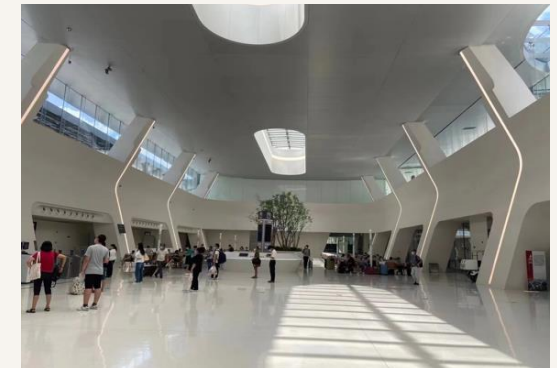

DELT / SPECTRUM

A versatile collection combining decorative pendants and rigid stem spotlights with multiple mounting options for hospitality, retail and commercial interiors.

Application Solutions

- **Retail** Strong visual impact, high CRI and flexible aiming.
- **Hospitality** Comfortable anti-glare lighting and warm atmosphere.
- **Office** Efficient, clean and controlled lighting.
- **Museum & Gallery** Precision beams, dimming and color consistency.
- **Commercial** Reliable solutions for malls, public areas and customized spaces.

Project Experience

Selected applications include luxury boutiques, department stores, mono-brand shops and international retail concepts.

Lighting for retail is not only brightness. It requires accurate color rendering, glare control, precise aiming and easy maintenance for frequent display changes.

Project Experience

From shopping malls to hotel and office environments, Artdon supports projects with product selection, samples and technical information.

Our experience covers high-traffic commercial interiors where stability, delivery control and after-sales communication are critical.

Global Project & Market Experience

Korea

Singapore

Philippines

Indonesia

Vietnam

Middle East

Europe

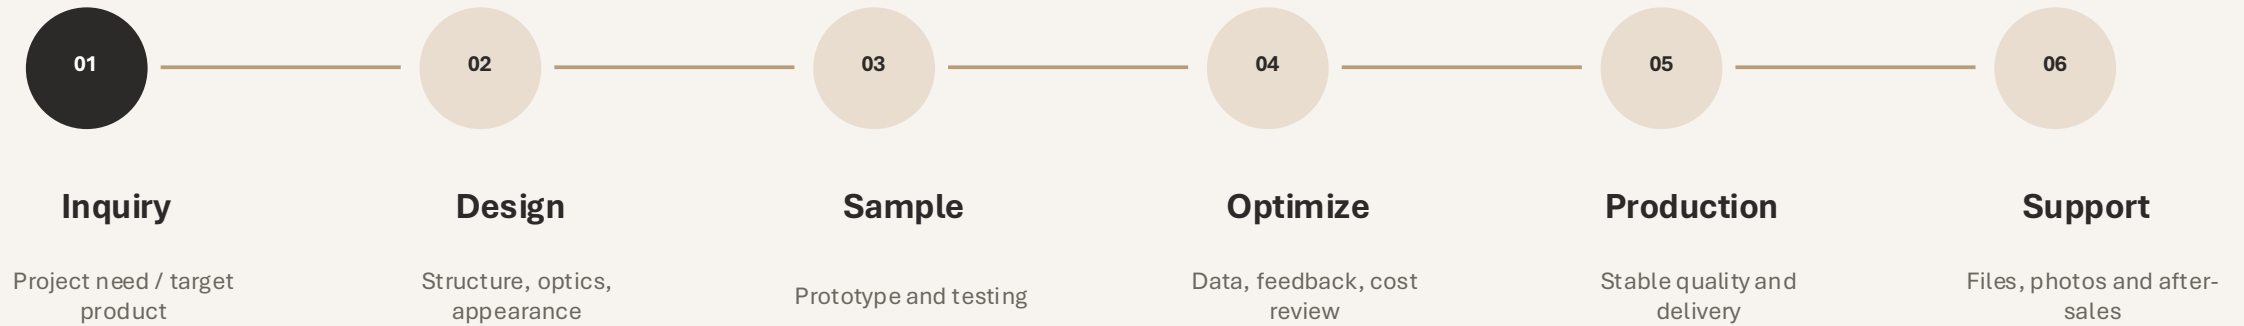

Australia

Artdon has served overseas customers for more than 18 years, supporting distributors, lighting brands and project partners in different regions.

HOW WE DEVELOP TOGETHER

OEM & ODM Cooperation

Cooperation Partners

For different project requirements, Artdon works with recognized LED chip and driver partners. Component selection can be adjusted according to project positioning, target cost and local regulations.

The Philips logo, consisting of the word "PHILIPS" in a bold, blue, sans-serif font.The Lumileds logo, featuring a blue circular icon with a white dot inside, followed by the word "LUMILEDS" in a blue, sans-serif font.The Cree logo, featuring the word "CREE" in a blue, sans-serif font, followed by a blue diamond-shaped icon with a white dot inside.The Citizen logo, consisting of the word "CITIZEN" in a blue, sans-serif font.The Luminus logo, featuring a blue circular icon with a white dot inside, followed by the word "LUMINUS" in a blue, sans-serif font.The Osram logo, featuring the word "OSRAM" in a blue, sans-serif font, followed by a blue circular icon with a white dot inside.The Tridonic logo, featuring the word "TRIDONIC" in a blue, sans-serif font.The Mean Well logo, featuring the letters "MW" in a white, sans-serif font inside a red square, with the words "MEAN WELL" in a white, sans-serif font below it.The Eagle Rise logo, featuring a blue eagle icon with its wings spread, followed by the words "EAGLE RISE" in a blue, sans-serif font.The Euchips logo, featuring a red and white stylized icon, followed by the word "EUCHIPS" in a black, sans-serif font.

Certificates & Patents

Available documents include CE, RoHS, REACH-related compliance support, product test data, patents and customer-requested files for project submission.

Documentation support for easier project approval and local market entry.

How We Work Together

- Step 1** Understand application, target market and required product level.
- Step 2** Provide suitable product proposal, technical files and quotation.
- Step 3** Make samples and improve details before mass production.
- Step 4** Deliver products with stable quality control and follow-up support.

We can cooperate through OEM, ODM, exclusive product development, catalog product supply or project-by-project support.

Let's build better lighting together.

Customized architectural lighting for global partners.
